

JAMES C. DAVIS

313 Beverly Drive, Corpus Christi, TX ◦ 361-793-1249 ◦ jamescdavis@gmail.com

Summary

I am a seasoned software engineer who excels at leading teams and hands-on development. I have a vast array of technical skills in the area of web application/API development and enjoy mentoring other engineers to bring out their highest potential. I believe in a pragmatic approach that utilizes development best practices to ensure high code quality and optimal output.

Experience

Senior Software Engineer Jun 2012 - Present
Harte Research Institute for Gulf of Mexico Studies – Corpus Christi, TX

- manage the software engineering team for a \$500 million project with users in 17 countries
- design, implement, and maintain an enterprise data repository web application
- implement agile software development processes and serve as Scrum Master

Senior Software Engineer Jan 2007 - May 2012
Conrad Blucher Institute for Surveying and Science – Corpus Christi, TX

- led the software engineering team for a scientific research institute
- designed and developed web applications for environmental data exploration
- developed technology budgets for federal, state, and local research grants

Software Engineer Jan 2005 - Dec 2006
Conrad Blucher Institute for Surveying and Science – Corpus Christi, TX

- worked on a software engineering team for a scientific research institute
- developed web applications for environmental data collection and dissemination
- maintained software behind a real-time marine data collection network

Education

Master of Science - Environmental Science 2013
Texas A&M University-Corpus Christi, Texas

Bachelor of Science - Computer Science 2002
Texas A&M University-Corpus Christi, Texas

Tools & Technologies

MVC Web Frameworks: Ruby on Rails, PHP Symfony, Perl Catalyst **CMS:** Drupal, WordPress
Front-end: JavaScript, jQuery, Angular, Backbone, Ember, Bootstrap, HTML5, CSS3, SASS
Back-end: PostgreSQL, MySQL, MongoDB, RabbitMQ, Elasticsearch, Redis, Docker, EC2

Practices & Paradigms

Version Control, Unit Testing, Selenium, Continuous Integration, Refactoring, Pair Programming, Agile, Scrum, Kanban, Code Review, Coding Standards, Test-driven Development, BDD, DDD, DRY, YAGNI, Object-oriented Programming, RESTful APIs, Microservices Architecture, SAAS
